

INTRIGA®

MONTGRAS

Intriga / 2019

D.O. Alto Maipo

TECHNICAL INFORMATION

Winemaker	: Cristian Correa	Alcohol	: 14%
Variety	: 85% Cabernet Sauvignon, 6% Cabernet Franc & 9% Petit Verdot	Residual Sugar	: 2.16 g/l
Harvest	: Began on 25 March	Total Acidity	: 5.37 g/l
		pH	: 3.5
		Production	: 6,600 cases (9L)

VINIFICATION

The grapes were hand-selected in the vineyards and then underwent a double selection of clusters and grains when they arrived at the cellar. The juice and skins were transported by gravity (without pumps) into small concrete tanks to macerate for 2 days. Then they were fermented with their native yeasts at 22°C-28°C / 72°F-82°F. The wine remained in contact with the skins for around 28 days. Next, small vertical presses were used to separate the wine from the skins. It was then racked into barrels to undergo spontaneous malolactic fermentation.

AGEING

Aged in 225-litre French oak barrels and 2,000-litre foudres for 24 months.

FILTERING & BOTTLING PROCESS

The wine underwent an initial earth filtration and then was finally filtered with a 20-micron membrane before bottling.

AGEING POTENTIAL

This wine can be enjoyed now or it could be cellared for 15 years.

TASTING NOTES

Deep red ruby colour with red fruity aromas and some dark ones. Full-bodied, with a good volume and structure in mouth, presenting intense flavours and spicy notes together with red plums, gooseberries and cassis. With a long and persistent finish, this is a powerful and concentrated wine with the renowned quality of the Maipo Valley.

FOOD PAIRING

Pairs excellent with mature cheeses and red meats in general, as well as more fatty meats such as duck, lamb or goat.

Viña MontGras is committed to sustainability and the environment:

VINEYARD

Located in Alto Maipo, which is the best wine region in Chile for Cabernet Sauvignon. Intriga was born at the feet of the majestic Andes Mountains, where vines with very low vigour and yields provide highly concentrated grapes for producing a powerful and characterful Cabernet Sauvignon.

CLIMATE

Mediterranean, with significant thermal oscillation between day and night. The Andes Mountain Range has a major influence, having a long dry season and a winter marked by extreme temperatures that can fall to freezing point.

SOIL

Very deep, ancient alluvial soils with clay on the surface and a subsoil of sand and stones. This type of soil comes from the decomposition of the Andes Mountains, which forms different kinds of stony terraces. Our Intriga vineyards are specifically located on the 2nd terrace.

SEASON AND HARVEST

The 2019 Harvest presented an absence of frosts and rains in spring, added to a good temperature range during ripening, which turned into healthy grapes, highlighting their aromatic profile, although with slightly lower acidity than normal. The harvest presented lower yields, which added to the accumulation of cold hours, translated into an advance in the start of the harvest of at least a week and a half. Overall quality was very good for Cabernet Sauvignon, Cabernet Franc and Petit Verdot with elegant and firm tannins.
